Subject: FW: Diazinon monograph

Dear Pete,

I sent the message below to Hans, who I thought had written all of the material on regulation for this group of agents. However, he claims not to remember this reference and thinks it may have come from you. Can you confirm or deny?

Best
Dana

Subject: Diazinon monograph

Hi Hans,

Another question about Section 1 from the 112 monograph meeting. In the diazinon monograph it says "Occupational exposure limits for diazinon ranging from 0.01 mg/m³ to 0.3 mg/m³ have been established in several countries (AFI, 2015) but the reference is missing. I think you had found those OELs somewhere. Can you provide the reference?

Hope you're having a good summer!

Thanks

Dana
